

ATTENTION HELICAL PILE AND PUSH PIPE FOUNDATION CONTRACTORS !

IF YOUR BUSINESS IS SUFFERING FROM LONG MATERIAL LEAD TIMES AND SHORTAGES CAUSING YOU TO LOSE PROJECTS

Advanced Support Technology, Inc. distributes helical pile, tieback and soil nailing products manufactured by Earth Contact Products (ECP) a proud US company. Over the past 35 years of distributing helical materials we have had the pleasure of representing both A B Chance Company and Maclean Dixie LLC.

Throughout our 35 years we made a special point of maintaining a relationship with Earth Contact Products of Olathe Kansas because of the exceptional customer service, product quality and product availability. Our goal was to someday cement a distribution relationship with ECP once they obtained the coveted ICC ESR which is required by most major city building departments in California.

Like numerous other industries, the covid nightmare inflicted extreme challenges in both the manufacturer and shipping of helical products eventually resulting in lead times of up to 6 months. We understand that we have an obligation to provide material in a reasonable period of time to our network of loyal installation contractors. After many months of shipping delays with our supplier at the time we reached out to ECP to acquire products. We soon discovered that the material shortage was not as "industry wide" as we were led to understand as we were receiving material with little if any delay from ECP.

If you are currently a contractor who specializes in foundation repair utilizing Helical piles or Push Pipe and wish to become a certified installation contractor for ECP products we are currently looking to expand our network.

AST, Inc. is a full-service distributor offering not only the highest quality helical products in the industry but also the equipment and tooling to install the product. Further, AST is available to assist you in the plan and report review as well as in the preparation of your project quotes at no charge.

All interested should feel free to give me a call to see if AST can be the partner you need to help grow your business.
